2. Composition/Information on Ingredients

This product does not present a physical or health hazard under reasonably anticipated circumstances of use or under emergency situations involving a release of only this product. Therefore, this material is not defined as a "Hazardous Chemical" by the Occupational Safety and Health Administration in the Hazard Communication Standard (29 CFR 1910.1200) or the equivalent standards generated by State agencies.

Accordingly, no Material Safety Data Sheet is required for this product.
